### Why Have an Overheated **Kitchen in Summer?**

When the sultry days come and the coal range makes the kitchen almost unbearable and cooking a dreaded task, put out the range fire and try the newest method of cooking in hot weather—use a

New Perfection Oil Cook-stove

What a contrast! The kitchen no longer is stifling hot, the work is now done with comfort, and the housewife is not worn out with the heat.

She saves her strength, keeps her health and is better able to enjoy the summer.

The New Perfection does everything that any other stove can do—all the family cooking, baking, washing and ironing No smoke, no dust, no odor. Heat is applied directly and not wasted. A turn, and the flame is out.

The New Perfection stove has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for the coffee pot or saucepans, and nickeled towel racks.

it has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove very attractive and invites clean-liness. Made with 1, 2 and 3 burners; the 2 and 3-burner stoven can be had with or without Cabinet. Freezy dealer sy, rywhere if not allyours write for Ductipilive Circular to the nearest agency of the

## BE INDEPENDENT Buy a California Farm

J. S. & W. S. Kuhn, of Pittsburgh, Pa., have recently opened up for cultivation by irrigation a large tract of land in the Sacramento Valley, Cal. Home seekers are taking up this land rapidity. There is no more fertile land on the continent than in this wonderful valley. Oranges ripen here six weeks earlier than they do in Los Angeles or Riverside. The climate is milder than that of Southern Italy. There is no winter—no snow or ice. Twenty acres in this valley will yield more net profit than eight times that much land in the east.

Why not buy a farm in California to-day? Don't waste your time working for someone clae when you can be your own master and live in the garden spot of this continent. Build your home in the Sacramento Valley where the another than the continent of the continent o mons grain ranches which have been farmed for the past malf century are now being turned into the enormously more valuable small fruit farms.

Leave the dirt, work and poor climate of the east and live in California's continual sunshine. The initial cost is but \$15 an acre. Will you write to-day to learn more about this wonderful opportunity. Send too in stamps for specially prepared and handsomely illustrated booklet, "California, Now or Never."

I pass the story of the banquet at Port Vancouver because it is un-plement to recits the difficulties of a kindly host who finds hipsasif with jarring clements at his bosrd cincly this was the situation of white haired Dr. McLaughlin of Fort van couver. It was an incongruous as couver. It was an incongruous as sembly in the first place. The officers lin made brave display as was his weat, in his regulin of dirk blue clut and shining butthns-) is noble tures and long snow whit hair making him the most kirdly figure of them all As fer us Americans kean and brown with hands hardened by toll our wardrobes scattered over a thousand miles of trail buckskin tunies made our coats, and moccashis our hoots. I have seen some noble gentlemen so clad in my dan it was as may be supposed late in

the tilght wher our some what discord ant hanqueting party broke up. We were all housed as was the he optimble fashion of the country in the sixteered log buildings which nearly dways halfo in a western furtrading post. The quarters sasigned me lay across the open space or what might be called the paradi ground of fort Van conver flanked by Dr. McLaughlin s for little cannon

As I made my way home stumbling athone the stunns in the dark I passed in ing soul drunken Indians and so age its to whom special liberts had been accorded in riew of the occasion all of them now engaged in singing the praises of the Ring George men ne neningt the Bostons

I was almost at my cabin dior at the edge of the forest fronth, at the rear of the old post while I created for a few moments allraps in the dim light of a hurry ling figure which in some way seemed. to be different from the binnket covered sprays who stalked here and there about the post grounds. She plastd stendily on toward a long and low log cable located a short dis-tunce beyond the quarters which had is rief from where the city of Port | been assigned to me. I saw her step inn! later was begun, as I builded for up to the door and heard her knock. up to the door and heard her knock then there came a flood of light --more light than was usual in the opening door of a frortler cibin. This dis-played the figu o of the night walker showing her tall and gaunt and a little stooped so that, after all, I took her to be only one of our American fron tier women being quite sure that she was not Indian or half breed

This emboldened my on a mere hance-an act whose mental origin I could not have traced-to step up to the bor after it had been closed and inyack to knock thereat

Poor tired soul, she is the victim of "housekeeperitis"—a disease common to women who haven't learned to take advantage of the Gold Dust way of easy house-cleaning and house-caring.

Why fuss and fret, work and worry, when Gold Dust will relieve you of at least half the labor of clearing everything and anything about the house? Whether for washing clothes or dishes, cleaning pots, pans and woodwork, scrubbing floors, doors or bathroom, you will find Gold Dust more economical, more convenient and better than soap or any other cleanser.

The Golden Rule of Housework is "Use Gold Dust."

Do not use Soap, Naphtha, Borax, Soda, Ammonia or Kerosene with Gold Dust. Gold Dust has all desirable cleansing qualities in a perfectly harmless and lasting form. The Gold Dust Twins need no outside help.
